MEMORANDUM FOR: Information System Planning Officer
Office of Executive Director

FROM: Chief, Systems Support Division
Office of Data Processing

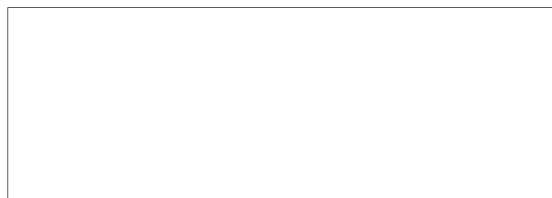

SUBJECT: Artificial Intelligence Applications
Working Group's Agenda

1. After looking at the AI documentation provided to us by Craig Cook, I recommend having project briefings on selected Agency AI projects at our monthly meetings. We could start with the two projects which has provided descriptions/tutorials --RUBRIC and DADM.

STAT

2. I have some comments on the charter of our group, but I presume we will be discussing it at our 23 August meeting. See you then.

MEMORANDUM FOR: Members of the Artificial Intelligence Applications Working Group

FROM:

Working Group Coordinator

SUBJECT: Minutes of 7 July Working Group Meeting

1. The first meeting of the Artificial Intelligence Applications Working Group of the CIA Information Systems Board was held on Thursday, 7 July 1983. Members attending included

2. [] convened the meeting and distributed copies of the agenda, a proposed charter for the working group, and a roster of Board members. After members reviewed the handouts, each introduced him or herself to the group. [] then discussed the Information Systems Board meeting of 27 June 1983 and answered members' questions about the structure, functions, and goals of the Board and working groups. Members agreed that a representative from OD&E would make a valuable contribution to the working group and requested copies of the ODP Strategic Plan when that report becomes available in August.

3. [] (ISRD/ORD/S&T) briefed the group on the activities and organization of the Artificial Intelligence Steering Group of the Intelligence Research and Development Council and gave a quick overview of ORD's current AI projects. He handed out a draft of his thoughts on the purpose, mission, and functions of the working group and a list of suggested discussion topics. He also agreed to send members short explanations of the ORD projects he had discussed and agreed if any were of further interest, more detailed briefings would be arranged.

4. Members then discussed the AI projects ongoing in their own components. Mr. Acree mentioned that IMS has ongoing projects in machine translation. [] briefly discussed SOVA's interest in inferencing and the evaluation of "Intellect" as an intelligence front end to data bases now underway in ASG. Mention was also made of OD&E's projects involving broad area maritime search. Members reiterated that a member from OD&E should be sought who could discuss that office's interest in AI.

5. [] asked members to be prepared to revise the Working Group's charter, if necessary, at the next meeting, and to suggest further briefings of interest. The next meeting is scheduled for Tuesday, 23 August at 1400 hours in room 3C28 Headquarters.
